Asma Alshilash	443200439	Logo design Sitemap Wireframes Site Audience Function requirement Competitive analysis Site goal

## Site Goal:

Our website aims to empower young minds by offering an approachable and fun environment for learning programming, making it simple for parents to browse, enroll their kids in classes, and make sure tutors' schedules are effectively managed, all while encouraging a love of coding in young users.

## Site Audience

Our website targets parents looking to enroll their young children ages 6 to 14 for fun kids-friendly programming classes. We also help tutors organize their schedules and communicate with parents. Administrators can efficiently plan courses and coordinate tutors.

## Function Requirement:

**Home page:** Displays different categories for programming courses, making it easy for visitors to explore courses based on their kids interests and skill level.

**Tutors page:** will serve as a comprehensive resource for visitors, providing detailed information about each tutor's background, expertise, teaching approach, and availability. This will empower visitors to make informed decisions when selecting a tutor for their child's programming education.

**Administrator dashboard:** Will display a comprehensive list of all kids who are registered in the learning center. Each registered kid's name, age, contact information, and course enrollment will be listed.

**Interactive Parent Reviews:** Enable parents to submit course reviews and ratings directly from the homepage. Provide a feedback form that allows parents to share their thoughts, helping prospective parents make informed decisions.

**Filter and Search:** Include a search bar and filter options on the courses page, allowing visitors to find courses based on criteria such as age group, programming language, or schedule.

**Notifications and reminders:** Our site will send notifications and reminders to registered users regarding upcoming courses, changes in schedule, and other important updates. This will ensure that parents will stay informed and never miss a class for their kids. It'll also send reminders for tutors to never miss a course.

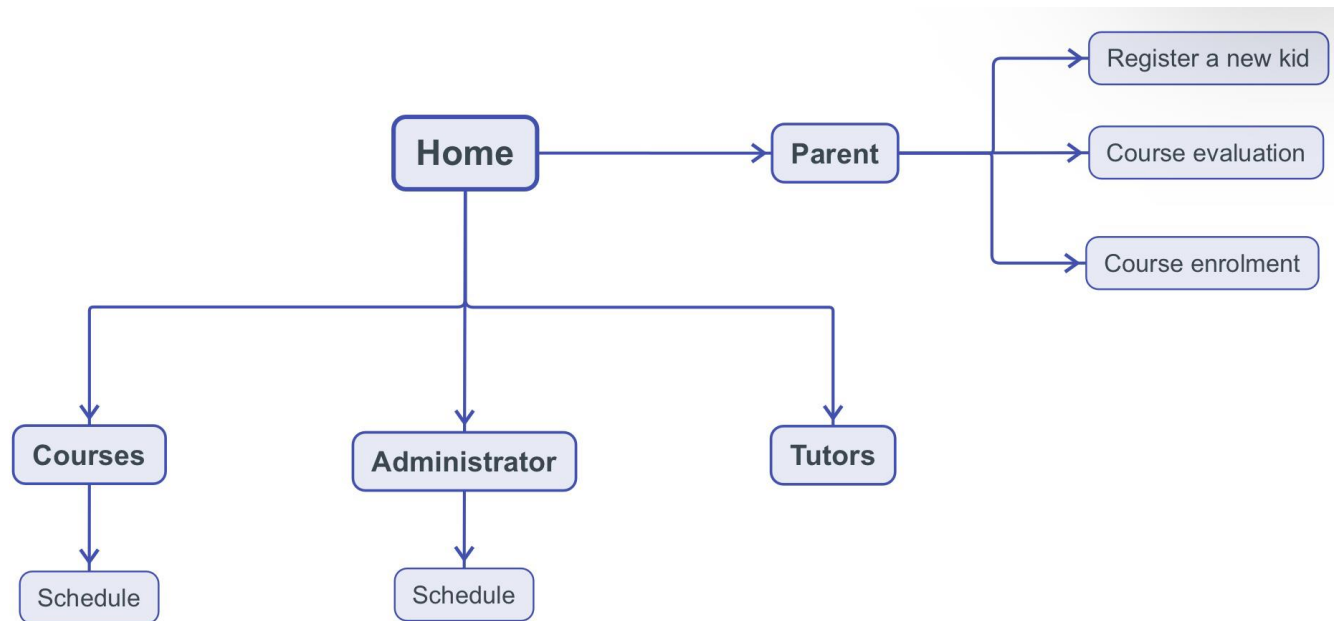

## Competitive Analysis:

The evaluation is a simple check Y/N; (Y=Yes, N=No) or a number from 1 to 10; (1 is the smallest value, 10 is the biggest value).

Criteria		Site 1 "Tuwaiq" URL <a href="https://tuwaiq.edu.sa">https://tuwaiq.edu.sa</a>	Site 2 "Misk" URL <a href="https://misk.org.sa">https://misk.org.sa</a>	Site 3 "Apple" URL <a href="https://developeracademy.tuwaiq.edu.sa">https://developeracademy.tuwaiq.edu.sa</a>	Additional Functions\Features
Design	Layout. (1-10)	10	9	10	
	Navigation. (1-10) (List three global navigation)	9	8	10	
		<ul style="list-style-type: none"> <li>- Camps and programs</li> <li>- Related academic</li> <li>- About the academy</li> </ul>	<ul style="list-style-type: none"> <li>- Programs</li> <li>- Focus area</li> <li>- Careers</li> </ul>	<ul style="list-style-type: none"> <li>-Programs</li> <li>- Stories</li> <li>Apps</li> </ul>	
	Look and feel. (1-10)	10	9	10	
Info	Download Time. (1-10)	9	10	10	
	Home Page Size. (1-10)	7	7	7	
Features	Search box in all pages. (Y/N)	N	Y	N	
	Advanced Search. (Y/N) (list the elements that guide the search)	Y	N	N	
		<ul style="list-style-type: none"> <li>- Date</li> <li>- Location</li> <li>- Type</li> </ul>			
	About Us page. (Y/N)	Y	Y	Y
